Microsoft Partner

Building strong Partnerships

Our Partners are Consultants specialising in the roll out of Microsoft Software across organisations. They focus on Microsoft deployments, migrations and implementations. We focus on end-user and skilled end-user training which is crucial to the success of any deployment.

We collaborate on proposals and tenders. Nexacu offers instructor-led, end-user training for any deployment of Office365, Teams, SharePoint, Dynamics and Power BI across Australia and South East Asia.

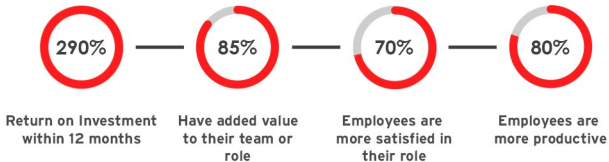

By partnering with Nexacu for the training element of a deployment, our partners achieve better overall outcomes for their clients fostering stronger relationships.

Nexacu has built an award-winning national business. Instructor-led training for end-users of Microsoft applications is our core business. We have bespoke systems, client portals, fulltime trainers, courseware, experience and a passion for training end-users. We are positioned to deliver training solutions at scale.

How effective is software training?

By partnering with us you will benefit from our:

- International reach: Australia, New Zealand and South East Asia.
- Australian based with dedicated training centers and experienced trainers nationwide.
- Team of fulltime passionate Microsoft Certified Trainers.
- Suite of courses to complement deployments including: Microsoft 365, Teams, SharePoint, Power BI and Dynamics.
- Consistently positive reviews, reflecting our trainers technical knowledge and effective teaching.

— Why partner with Nexacu?

- Provision of standard or customized training to suit your clients deployed solution.
- Variety of instructor led training modes: face-to-face, remote / online or blended sessions.
- Ability to deliver training in private or public sessions, as determined by the clients needs.
- Lead sharing and volume driven discounts for trusted Nexacu Partners.
- Proprietary courseware developed in-house, specifically for end-users. Continuously updated and refined based on client feedback and experience.

Get in touch

Deploy your solution in the knowledge that end-users will be trained by award winning industry leaders. We play to our strengths, you play to yours!
